## SUMMARY

Final-year Cybersecurity Analyst with hands-on experience in web & network penetration testing, SIEM rule development, and

## SKILLS

- Web App Testing: OWASP Top 10, SQLi, XSS, SSRF
- Network/Infra: Nmap, Nessus/OpenVAS, Wireshark
- Detection: Splunk, ELK, Zeek
- Automation: Python, Bash, Git, Docker
- Cloud/DevSecOps: AWS basics, IaC scanning

## SELECTED PROJECTS

- Web Application Pentest — University Portal: Found 2 medium SQLi, insecure file upload. Delivered remediation.
- Network Vulnerability Assessment — OrgX Lab: Host inventory, CVE mapping, prioritized remediation.
- SIEM Rule Dev — Splunk: Built analytic rules to detect suspicious login & lateral movement.

## CERTIFICATIONS

- Cybersecurity Internship — Esprit Systems
- Hack The Box / TryHackMe rooms completed (45+)
- AWS Solutions Architecture (for learning)

## EDUCATION

B.Tech in Information Technology — IMS Engineering College (2022-Present)
